### Imperial Polarine Available Everywhere

WHEREVER, you tour, throughout the length and breadth of Canada, you can secure the grade of Imperial Polarine you now use for Jubrication—exactly the same uniform grades are sold by dealers everywhere from Halifax to Vancouver.

Imperial Polarine reduces your greatest expense—depreciation, yet coats less than storage, tires, repairs or gaseline. It reduces friction to a minimum, maintains a piston-tight sail under heaviest engine heat, helps the engine extract the last onacc of power out of gasoline.

Imperial Polarine holds its body, maintains compression—keeps the motor running smoothly and quietly. The Imperial Chart of Recommendations shows the grade recommended for your car. Ask to see it when you stop for oil.

Imperial Polarine is sold by good dealers everywhere in sealed one-gallon and four-gallon cans, half-barrels and barrels, also in 12½-gallon steel kegs, the landy size for the home garage. Buy the larger sizes to save money.
